

Volunteer spotlight

Andrew Stamm

Volunteer for **11 years**

Children's Hospital New Orleans

My favorite memory volunteering

One of my favorite volunteering memories happens every year at Mardi Gras when Bacchus begins his reign. The kids always seem to be very excited about the event. They seem to enjoy the music and the throws from the King! This event is very enjoyable for the "grown ups" too.

My favorite part of volunteering

Every week when I come to volunteer, my personal goal is to help at least one family (more if possible) but at least one family get out of their room for just a little while and try to get their minds off the reason for being at Children's. This can be very hard to do, but when I accomplish that in our Play Room, I feel like I have had a good day!

My little something extra

Baseball has always been my favorite sport! My wife and I have been to all 30 MBL Stadiums at least once. We still attend games whenever time permits.

Why I'm extra-ordinary

Although all of us have our "ups and downs" in life, I feel like I keep an optimistic or positive attitude in whatever I am doing. This not only makes me feel good, but I think it can also help those around me.

More great volunteers needed!
