

Volunteer spotlight

Harold Putfark

Volunteer for 13 years

East Jefferson General Hospital

My favorite memory volunteering

I was going to the parking lot after my volunteer shift. I was in the Canal Garage and noticed an elderly man standing on the third floor looking lost. He couldn't find his car. I drove him around and after a while we found his car parked in the other garage. He was very thankful, and it made my day.

My inspiration to volunteer

I had a relative who volunteered in Cardiac Rehabilitation. He thought I would enjoy volunteering. A number of people from my church also volunteer.

My favorite part of volunteering

Making beds in the GI department, helping the nurses when needed, and transporting patients in wheelchairs to their cars.

My little something extra

I enjoy watching LSU and Saints games on TV in the comfort of my own home. I like eating out with family and friends. On the weekends, I like to barbecue for my wife and I.

Why I'm extra-ordinary

I believe I have a knack for talking with people and I love to talk. But I am also a good listener.
