

## Volunteer spotlight

# Giovanni Lopez

Volunteer for 1 year

University Medical Center

### **My favorite memory volunteering**

One time I was depressed, and I visit one patient with breast cancer, and she lifted me up on a day when I was supposed to lift her spirits. So, no matter what we're going through, there is always light at the end of the tunnel.

### **My inspiration to volunteer**

All the blessing I have in life, I need to share them with other people

### **My favorite part of volunteering**

I enjoy being able to comfort someone who is going through a traumatic experience.

### **My little something extra**

I like to volunteer, with other groups, like the food bank, and Nola ready.

### **Why I'm extra-ordinary**

I am trying to do my part to give back, because I really care. We have so many negative things happening in the world these days and if we all did a little to give back we'd find ourselves in a better world.

### **My day job**

I am a welder and work in a welding shop.

**More great volunteers needed!**
