

## Volunteer spotlight

# Oscar Martinez

Volunteer for **3 years**

University Medical Center

### **My favorite memory volunteering**

My favorite memory would have to be giving a blind man a snack and watching his face light up. He was waiting to go to a shelter and clearly was unsure when his next meal would be. He took my hand, held it for a second and it was a profound moment for me that's such a small gesture was so significant for him.

### **My inspiration to volunteer**

My goal is to go to medical school. I want to give back to the community.

### **My favorite part of volunteering**

Helping the individuals who need it. Going to the hospital can be a scary experience and sometimes a smiling face or a helping hand can make all the difference.

### **My little something extra**

I enjoy going to the beach with my niece and nephew! I love you Gia and Beckett!

### **Why I'm extra-ordinary**

I think going the extra mile. Little things can make people feel special even at the worst of times.

### **My day job**

I am a medical scribe at East Jefferson General Hospital!

**More great volunteers needed!**
