Brittany Tav, MD	EJGH

## Subcommittee Priorities

- Recommend quality, access and cost management priorities and measures. Establish targets and develop annual plans to meet the prioritized targets.
- Develop reporting and performance tracking mechanisms which promote provider, practice and staff engagement, transparency and overall improvements in patient care services.
- Recommend and oversee the policies and programs to foster collaboration among provider partners to ensure proper coordination of patient care services across different settings, including:
- Quality management programs to advance adoption of clinical protocols, evidence-based practices and coordinated care standards;
- Coding and documentation improvement efforts targeting improved risk adjustment;
- Holistic care management across the continuum of care and care transitions, including patient-centered care, utilization, demand and clinical risk management;
- Provider engagement initiatives, including outreach, education, and physician leadership development efforts, and
- Recommend and oversee ongoing changes to provider participation requirements and criteria.
- Routinely evaluate performance and institute performance improvement and provider remedial processes as needed.

***\*\*Thank you to Drs. Kevin Joseph (Access Health of LA) and Angela McLean (LSU Healthcare Network) for their prior service on the LHP Quality Subcommittee.***
